### Rockin' Reptiles and Awesome Amphibians

Do you know the difference between a reptile and an amphibian? After this program you will! Be a herpetologist and explore hands-on the world of herps (collective name for reptiles and amphibians)! Learn about some of the different species living here at the aquarium and even have a few visitors stop by to help us learn more about them. You won't want to miss it!

This program will include several live animals
